

macron®

Macron is a recognised sportswear brand supplying match, training kit and leisurewear to football, netball, rugby, basketball, athletics and volleyball. We operate in all levels of sport and are especially keen to develop our range for schoolwear. We currently supply over 10,000 teams worldwide.

Macron Store London/South East/Hampshire is the UK's biggest dealer we can offer schools competitive rates on the Macron range. We also have our own UK manufacturer making bespoke match kit including a sublimated reversible rugby shirt.

We recognise that schools now want a brand for their physical education and to compete in inter-school competition to give them that added esteem that a brand gives. Schools also need to have a kit fit for purpose with technical function, something for which Macron strive and deliver.

We would like to show you the sports kit on offer from Macron which is suitable for all ages, all budgets and all levels of competition from basic branded polo and t-shirts to sublimated football and fitted rugby shirts and netball dresses. It is a credible alternative to other brands which may be more restrictive either by price or supply. We can also offer you preferential prices.

The Macron brand is relatively new but growing and so the schools wearing the brand will see the difference and see it as the choice to be wearing for sport.
